

Bella Vista

The eastern slope of the volcano "Montaña Roja" is the location of this magnificent development of 16 exclusive villas that stand on large plots, where the edifications and the beautifully landscaped gardens merge harmoniously with the natural environment.

The superb position of Bella Vista welcomes extraordinary panoramic views of the volcanic scenery of the National Park of Timanfaya and of the neighbouring islands of Fuerteventura and Lobos.

We aim to the realization of an innovating project in which we try to unite the materialization of your ideas and dreams with the reality of our specifications, counting at all stages with the advise, ample experience and supervision of our team of specialists.

Bella Vista

The villas can be individualised in accordance with the personal needs and expectations of the clients and in combination with Hipoclub´s design together with the support and advice of our team of experts.
